

## **Course Title** Fire Awareness Training

### **Eligibility**

Open to all employees

### **Course Content**

The course is designed specifically to promote fire safety within the workplace and demonstrate to employees the causes of fire and to introduce safe working practices. The course includes extinguisher training both theoretical and a practical demonstration and students are encouraged to use any of the extinguishers found in the workplace on a real fire.

To provide students with an understanding of fire safety within the workplace and practical skills needed in the selection and use of fire extinguishers.

It will also inform students in the behaviour of fire and human responses in emergency situations.

To ensure staff have sufficient knowledge to enable them to act confidently and effectively in a fire emergency situation. To provide flexible training that can be adapted to individual company needs and be undertaken at your workplace.

### **Outcome**

#### **Students will have received training in the following areas:**

Theory session:

- Fire Law (in brief)
- The Threat & Chemistry of Fire
- Fire Behaviour & Fire Action Routines
