Section II: Object

II.1) Scope of the procurement

II.1.1) Title

National Resilience - Detection, Identification and Monitoring (DIM) Equipment Uplift.

II.1.2) Main CPV code

- 38000000 - Laboratory, optical and precision equipments (excl. glasses)

II.1.3) Type of contract

Supplies

II.1.4) Short description

The suite will consist of devices that utilise a variety of technologies to allow the greatest number of 'target materials' to be detected and identified. The use of a suite of technologies will allow potential complementary identification of the target materials and reduce gaps in capability.

Therefore, procurement will be split into discrete 'lots', based on the likely individual technologies, along with one additional 'lot' for any other technologies. Devices that use more than one technology type may be entered in either (or both) lots that apply. The full list of planned lots as currently envisaged follows although this may change by the time the tender is published.

Section VI. Complementary information

VI.6) Original notice reference

Notice number: [2022/S 000-001487](#)

Section VII. Changes

VII.2) Other additional information

A virtual Supplier Day will be held between 11:30 and 13:30 on the 17th May 2022, consisting of a short opening presentation, followed by a Q&A session.

Interested suppliers should contact procurementmfrs@merseyfire.gov.uk

to request joining instructions.
