SERVICE DELIVERY PLAN 2022-23:

April to September 2022

INDEX

Total emergency callsTotal incidentsTotal firesPrimary firesSecondary firesSpecial servicesFalse alarmsAttendance standardSickness absenceCarbon output

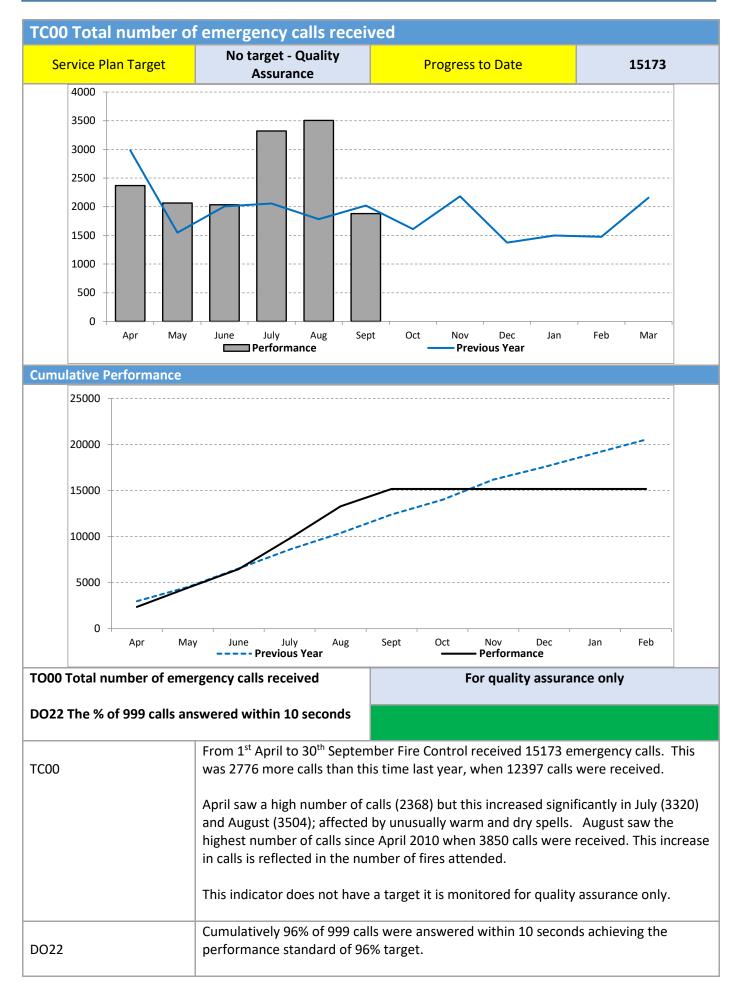

Objective:

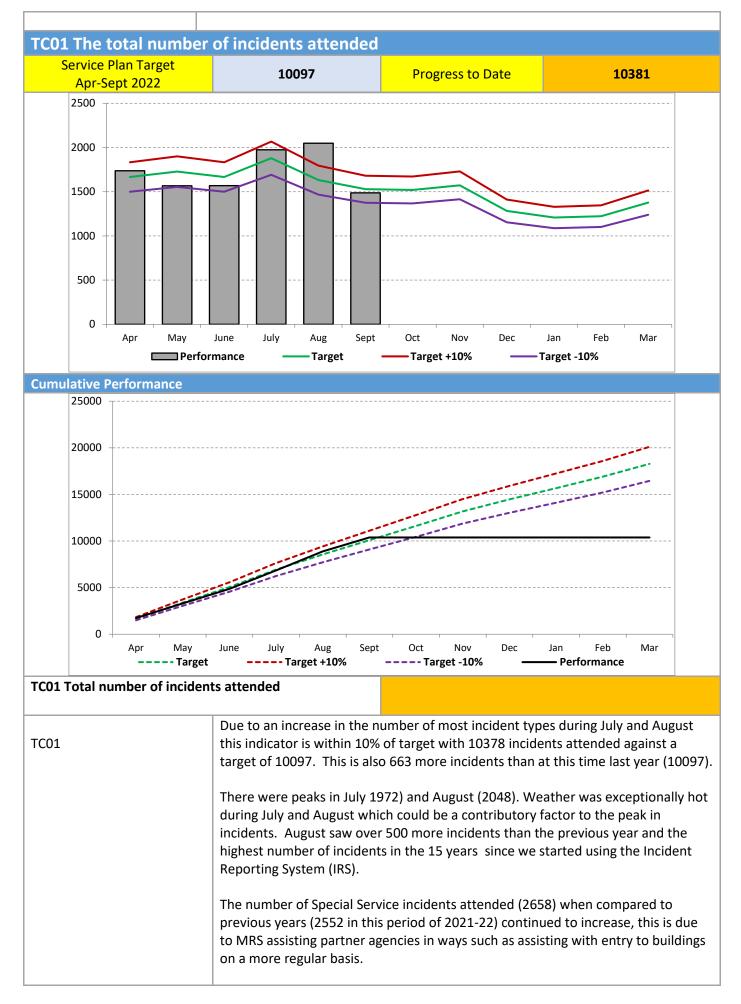

Good performance is reflected on the top bar of each indicator graph. We use Red, Amber, and Green to indicate how each indicator is performing. Amber reflects an indicator is within 10% of target.

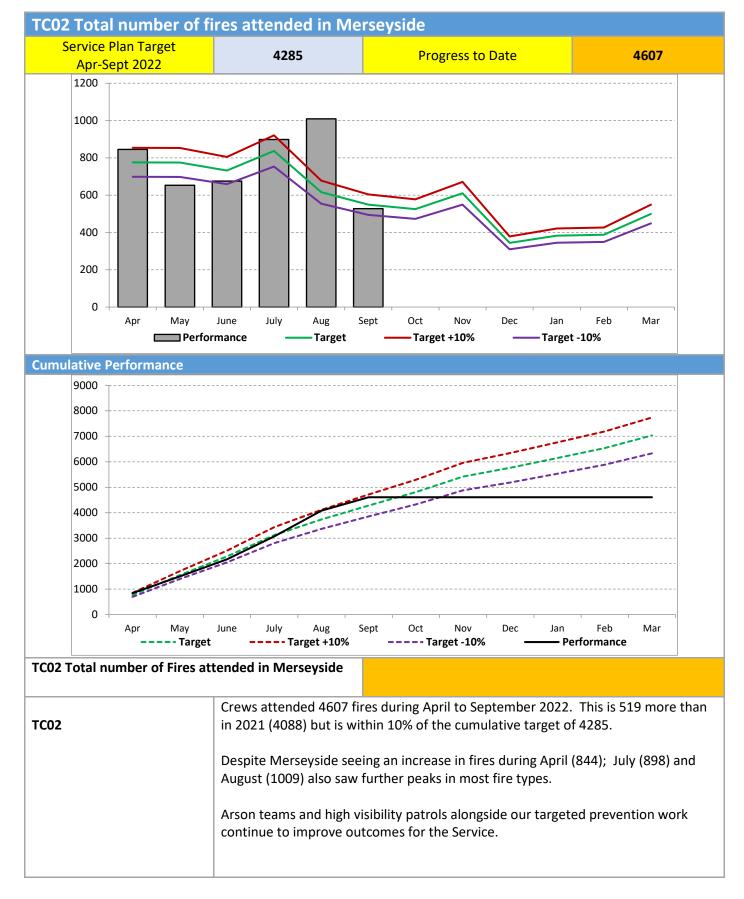

MERSEYSIDE FIRE & RESCUE SERVICE

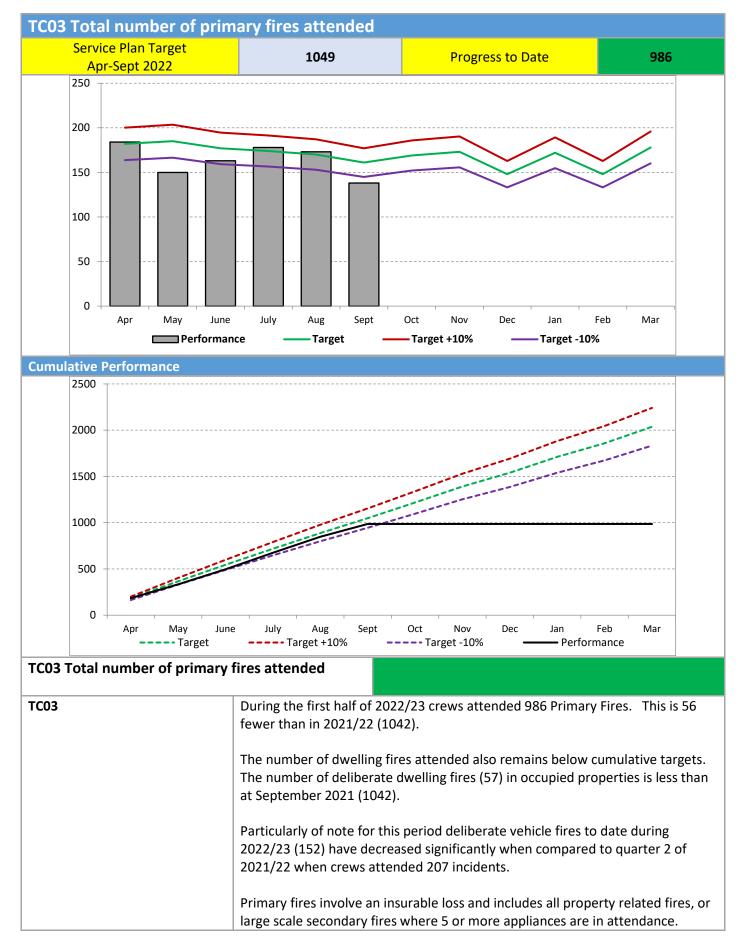

BENCHMARK INDICATORS

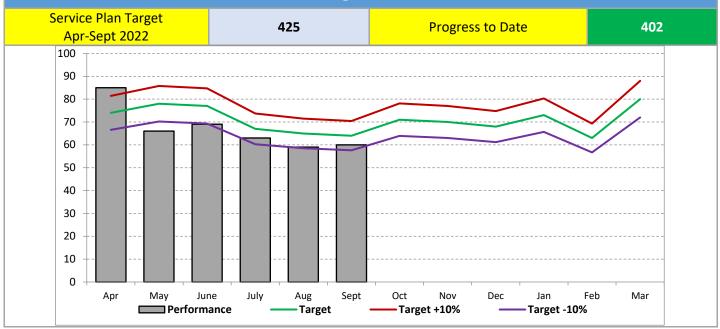

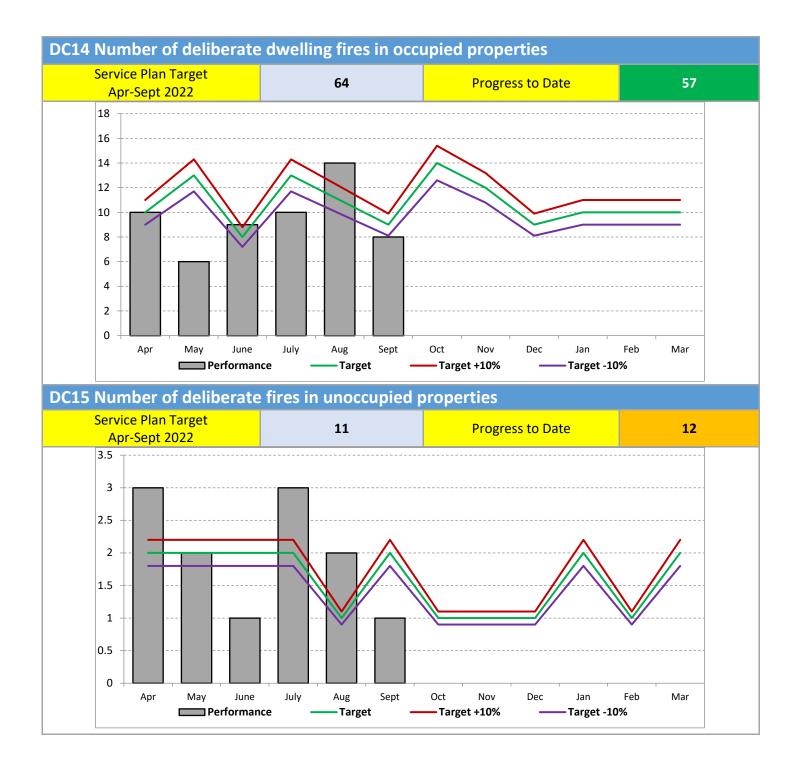

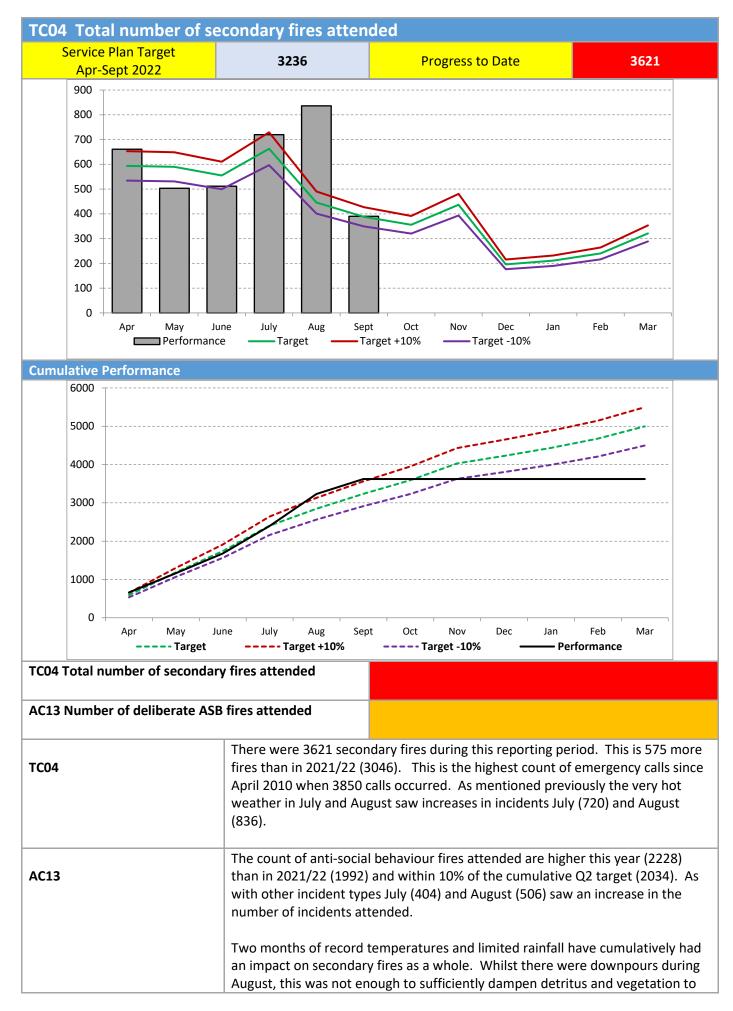

DC11	Number of accidental dwelling fires						
DC12	Number of fata	Number of fatalities in accidental dwelling fires					
DC13	Number of inju	Number of injuries in accidental dwelling fires					
DC14	Number of del	Number of deliberate dwelling fires in occupied properties					
DC15	Number of del	Number of deliberate dwelling fires in unoccupied properties					
DC16	Number of deaths occurring in deliberate dwelling fires						
DC17	Number of inju	uries occurring in deliberate dwelling fires					
	COMMENTARY:						
DC11		Accidental dwelling fires during 2022/23 at 402 continue to lower than the cumulative target for quarter 2 (425). This performance is lower than 2021/22, when crews had attended 424 accidental dwelling fires.					
DC12		There has sadly been 1 fatality in an accidental dwelling fire to date. The Coroners verdict is awaited to confirm the cause of death.					
DC13	There have been 25 injuries in Accidental Dwelling Fires. This is considerably under cumulative target of 45.						
DC14	Deliberate dwelling fires in occupied property (57) is below the cumulative target (64) an there have been 9 fewer incidents than in 2021/22 (66).						
DC15		Deliberate fires in unoccupied properties (12) is less than at this time in 2021, when 1 incidents were attended.					
DC16 [DC17	There have been no fatalities in the deliberate dwelling fires and 3 inju	ries to date.				

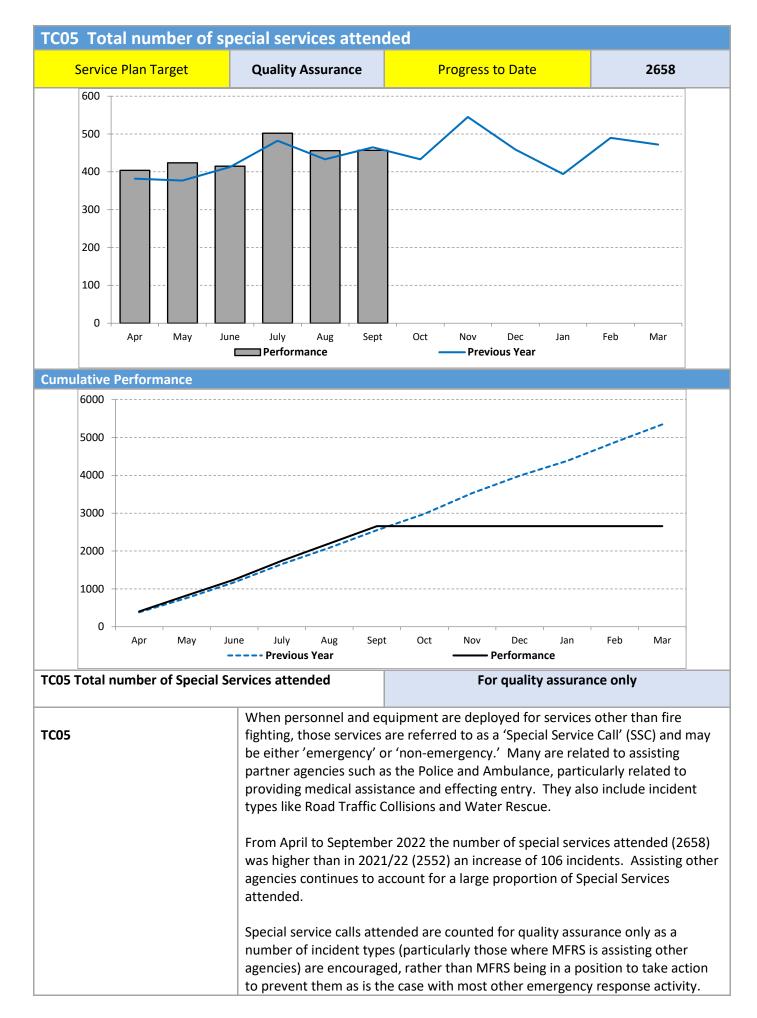

DC11 Number of accidental fires in dwellings

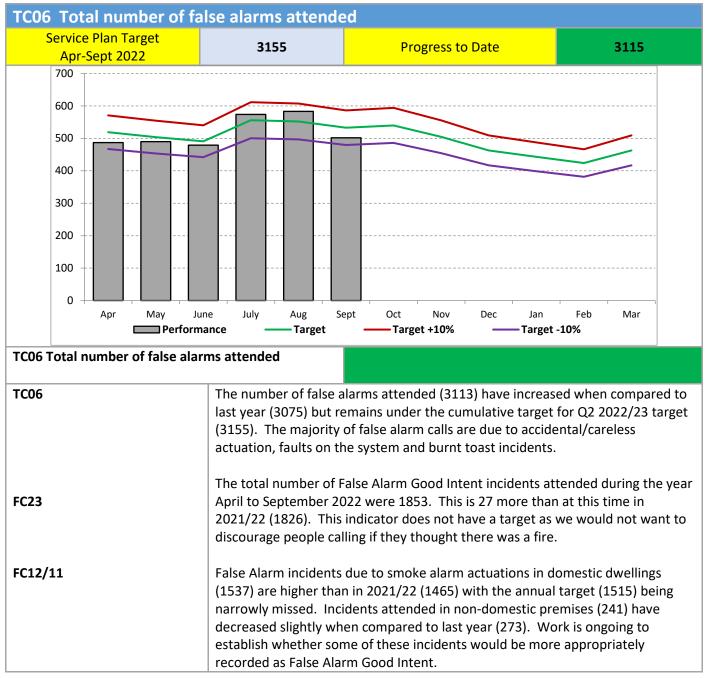

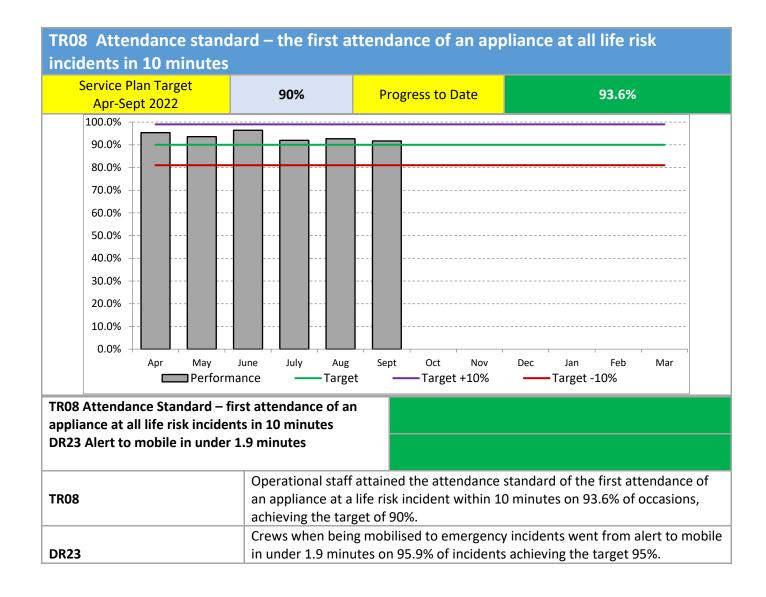

reduce the fires. Limited analysis has shown that when comparing all secondary fires to weekly rainfall bulletins from the Environment Agency there is a link showing that when the conditions are dry (not just hot) the number of incidents increase.
The Arson Reduction Team continue to work with partner agencies on initiatives such as Beachsafe on the Sefton coast to discourage barbecues and fires being lit and left in the Pinewoods and sand dunes.

RC11	The number of Road Traffic Collisions attended (430) is more than last year (391). There were 89 incidents in July which is considerably more than other months.
RC12	There have been 2 fatalities in RTC's attended by MFRS this is less than 21/22 when there had been 10 fatalities.
RC13	163 injuries in RTC's are more than this period in 2021/22 when there had been 145 injuries.
RC15	Police 'Killed and Seriously Injured' data about the 16-24 year old age group that MFRS Prevention teams target is similar to last year with 49 incidents attended compared to 48 in 2021/22.
RC24	Water rescues are also included in Special Service calls and this type of incident has reduced from 27 in the first half of 2021 to 18 this year. This incident type includes rescues from floods, rivers including the Mersey, park lakes and ponds. As with road traffic collisions, arson and antisocial behaviour, the community safety team takes action with partners to reduce these types of incident.
